A wonderful exploration of how you make  
puppets – all the different kinds, how you use  
the puppets and how you make up stories.

# LET'S MAKE A PUPPET... ... LET'S TELL A STORY

A wonderful exploration of how you make puppets - all the different kinds, how you use the puppets and how you make up stories. From the team at Little Dog Barking performed in your centre or classroom.

The show includes some wonderful counting songs, stories, including some old time favourites - the Owl and the Pussy Cat, Incy Wincy Spider and new ones such as My Garden. We make simple puppets and then tell simple stories.

The Puppets bring nursery songs to life encouraging the children to join in and sing along. Imagine a plastic bottle being turned into a wonderful puppet gardener, a pair of gloves into a caterpillar, and there you have a story, The Gardener and the Caterpillar.

An exciting theatre adventure watching simple stories unfold using shadow, rod and hand puppets made by hands, fingers and simple props.

This is a show about imagination, about creativity and about working together. This performance will give you lots of opportunities for post-performance activity.
